

Fire Safety Awareness

In the UK, approximately 400 people die per year from fire. The current Fire Safety Order states that fire risks must be managed in places of work.

Course Overview

This course is suitable for all persons not having designated fire duties but who still require a basic level of fire safety awareness.

It covers the reasons why fires can occur and what actions must be taken to help prevent a fire starting and actions to take when they do.

Course Syllabus

- Identifying fire hazards
- Sources of ignition
- Sources of fuel
- Sources of oxygen
- Identifying people at risk
- Evaluate the risk of a fire starting
- Remove or reduce fire hazards
- Fire precautions
- Preparing an emergency plan and procedure
- Instructing relevant personnel
- Alarms and sprinkler systems
- Review of fire risk assessments
