

Cardiopulmonary Resuscitation & Defibrillator

A cardiac arrest can happen to anyone of any age at anytime. The risk of death from an arrest can be dramatically reduced if you have a defibrillator installed and train a competent person.

Course Overview

Heart and circulatory disease claims around 200,000 lives each year. Many could have been saved if a defibrillator was made available. Automated External Defibrillators (AED's) are now becoming more common throughout a range of public and work places. A casualty's survival rate will dramatically increase if an AED is available and if you have appropriately qualified personnel to use it.

This very practical course will enable your learners to use the AED competently and with confidence. Not only does this course deal with the use of an AED but it also includes vital training in resuscitation and choking procedures.

Course Syllabus

- Responsibilities and reporting
- Resuscitation
- Choking
- Assessment of the situation
- Heart attacks
- AED safety
- Dealing with an unresponsive casualty
- Infection control
- Paediatric defibrillation
- AED functions
- Defibrillation procedures including correct pad application
- AED do's and don'ts
- Conditions where AED's can be used
- Theory of CPR and AED use
- Managing an emergency situation
- Liaising with the emergency services

Course type options:

Tailored

Open

frequently asked questions...

The Course

Course Delivery	This course is available either as a Tailored or Open Course
Accreditation	QCF
Course Length	4 hours
Start / Finish Times	Typically 08.30-12.30 or to suit
Maximum Group Size	12
Tailored to Specific Requirements	Yes - Please provide at the booking stage
Course Material	Handouts are provided on the day

Certification

Is there an Assessment?	Practical assessment and multiple-choice paper
Are certificates issued?	QCF Level 2 Award
Valid for?	3 years however annual refresher training is recommended
When / how are they available?	Available for download from the NUK website upon completion

The Delegates

Prior Knowledge / Prerequisites	Previous first aid training is required
Needs to bring along	Everything is provided on the day

The Venue

Course Location	At a venue of your choice or a NUK venue
Venue Requirements	Please inform us of any mobility concerns
Non-NUK Venues	Must have adequate space, seating, lighting, welfare and 240v socket for Tailored Courses
Refreshment at NUK Venues	Available on request
