

# IOSH Directing Safely

High profile cases have highlighted that board members, directors and senior management are not immune from HSE prosecutions

## Course Overview

This course is intended to enable attendees to have a basic understanding of their duties and functions arising from the Health & Safety at Work Act 1974 and subsidiary legislation so that they can better understand how to maximise the requirements of the legislation in a pragmatic way.

This highly interactive course is designed to equip and inspire senior personnel to improve the health and safety culture within their organisations.

## Course Syllabus

The course content reflects the format of HSG65 which is the principal HSE guidance for the management of health and safety in business.

- Understand the importance of strategic safety management systems and its integration in to other business management systems
- Be able to identify accident causes and plan for prevention through risk assessment and control strategies
- Know the consequences of failing to manage health and safety
- Understand the importance of employee selection and the effect of human factors on health and safety
- Understand the importance of consultation and communication with employees on health and safety issues
- Know the importance of performance monitoring for continual improvement of health and safety management
- Importance of health and safety training within their business
